

## High-speed Camera Module

High-speed camera with compact design and user-friendly software

### Technical data

---

Frame rates: 200, 500, 1000 and 2000 fps  
Payback speed: 1, 2, 5, 10, 20 and 30 fps  
Resolution at 200 fps: 2048 x 920 pixels  
500 fps: 2048 x 360 pixels  
1000 fps: 2048 x 180 pixels  
2000 fps: 2048 x 80 pixels  
Adjustable lens (zoom, focus and diaphragm)  
Manual amplitude measurement feature  
Optical and digital zooms  
Integrated LED ring light  
Dimensions: L150mm x W150mm x H250mm  
Material: anodized aluminum  
Finishing: sand-blasted  
Indicative price: CHF12'500

### Options

---

Watch movement holder, XY linear stage  
Specific lens or lighting  
Multi-camera configuration
